

## New Cosmos PS-7 Sensor Package Update

### Overview

New Cosmos has made an update to the package of their PS-7 Sensors. New sensors will now be packaged in Red and feature a manufacturing date. The manufacturing date informs users of the date their sensor was created and should NOT be viewed as an expiration date. All sensors are shipped pre-calibrated. Sensors should be gas calibrated if in use beyond 12 months of installation or 16 months from manufacturing (whichever comes first).
